INFORMATION

Domus Academy **Architecture Department** gathers the rich teaching know-how of **two** different Master courses: **Master in Urban Management and Architectural Design** and **Master in Interior and Living Design**. The Department was born with the objective to work on the whole universe of urban experience. In this perspective, the department has created a training project of excellence able to reflect on the changes and transformations of the built space, promoting a permanent research activity for design models and solutions that are appropriate and innovative.

The **Master in Urban Management and Architectural Design** offers an update of professional competences in terms of visions and design abilities. It intends to establish special relations between the functions of architecture and the quality of the territory. It intends to train professionals able to manage, at different levels, the complexity of urban, territorial and architectural issues, by using new tools of analysis and innovative design methodologies.

Amuse us is an international competition aimed at the collection of design ideas sharing a new interpretation of 'quality time' for places and people. The competition addresses graduates and professionals working in architectural, territorial, design, economic, humanistic, social and communication disciplines.

URBAN PLAYGROUNDS

The concepts of project will have to propose visions for an innovative model of metropolitan 'life style'. It is an invitation to create stories able to re-qualify those abandoned areas of cities, where new recreational spaces become 'driving forces'. Places enhancing meeting, exchange and entertainment occasions and characterising collective life. It is from the creativity of processes that stimulating realities for new dynamic and vital urban centres can be generated. The project can start from the reinterpretation of squares, arcades, houses, schools, parks, bars, flea markets, stores, cinemas of an area of a real or virtual city.

MATERIALS REQUIRED

- Written description of the project in A4 format (max 3 pages)
- Two A3 boards of project.
