admission requirements

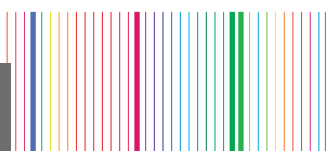

To be accepted at NABA it is necessary to have a high school diploma or equivalent that is recognized by the Italian authorities. The diploma must be translated and legalized by the Italian Embassy or Consulate in the country of origin (independently from the country in which the school is located. For ex: a German High School diploma in France must be validated by the Italian Embassy in Germany). The Italian Embassy or Consulate must issue a "Value Declaration" ("DICHIARAZIONE DI VALORE"). This document certifies that the original diploma is equivalent to the Italian diploma. If in doubt regarding the validity of the diploma, please enquire at the Italian authorities in the country of origin. All NABA students have to pass an admission test.

Course of technical italian for design

Foreign students are offered, without additional cost, a preparation course which lasts 3 weeks (language and technical skills), in order to facilitate the passing of the exam. Foreign students will take a test to assess their knowledge of the italian language in order to select the most appropriate course to improve their linguistic skills
